**MISSISSIPPI TO CHOOSE  
UNITED STATES SENATOR**

Jackson, Miss., July 31.—An exciting three-cornered fight for possession of the United States senatorial toga now worn by LeRoy Percy, of Greenville, comes to a close today and the voters of Mississippi will decide the victor in tomorrow's state and senatorial primary. Senator Percy, who was chosen in 1909 to fill out the unexpired term of the late Senator McLaurin, is a candidate for re-election. He is opposed by former Governor James K. Vardaman and C. H. Alexander. Vardaman was an unsuccessful candidate in the senatorial primary of 1907, in which Senator John Sharp Williams was the victor. As governor of Mississippi, Mr. Vardaman attracted national notice by his opposition to educating the negroes. He also favors repealing the fourteenth and fifteenth amendments to the constitution of the United States.

The democratic primaries for state officers, equivalent to election, will also be held tomorrow, but are attracting little attention, as Earle Brewer, of Clarksdale, is unopposed for the governorship. This is the first time in history that an aspirant for the governorship has captured the office without opposition.

The United States senator chosen tomorrow will be formally elected at the next session of the state legislature, but will not go to Washington until 1913, when Senator Percy's term expires.

**CAN'T WED, SO QUILTS PULPIT.**

Chicago, July 31.—This is the last day of the pastorate of Rev. C. H. Heywood, the youngest ordained minister in Illinois, at the Wentworth Avenue Baptist church. His resignation, offered because his salary of \$1000 a year would not permit him to wed the lady of his choice, becomes effective tomorrow. Miss Florence Woodman is the young woman to whom he is engaged and for love of whom he has abandoned his flock to hunt for a more profitable job.

Parson Heywood, like most men since Adam, puts the blame on the fair sex. The women of his congregation, he says, think nothing of paying \$5 for a pair of silk stockings, and make up for the extravagance by dropping pennies into the collection box. They think more of their legs than their souls, intimates the indignant minister.

If the men would only go to church, declares the Rev. Heywood, the minister could depend on three squares per diem and could even afford the

luxury of a wife. As it is, he says, most of the regular church-goers are women, and while they are willing workers, they are financial tightwads. "Besides," adds the youthful minister, "they talk too much." In view of the latter statement, some of the women of the church say it is just as well he is quitting tomorrow.

**STATEMENT FROM  
DR. POND'S FATHER**

Over the Grave of His Unfortunate  
Son Aged Father Spoke from  
a Full Heart.

Mr. M. A. Pond, father of Dr. Pond, said in substance at the grave:

"This Dr. Pond, the deceased, came from a Christian family. A great deal of time, money and sacrifice were spent to make him a fine specimen of humanity. In our family we all arose in the morning to do God's will for the day. We had the old-fashioned family worship of reading a chapter, singing a hymn and prayer in the morning, and private prayer on retiring. It is no new thing for us to pray and get our answers to lead a soul to Christ, to live the Christ-life of joy and happiness. There is no recorded case of insanity in our family for three hundred years. We had received only letters saying how happy they were. We knew nothing of their troubles till the telegram saying he was dead—come, I left his two sisters prostrated with grief. But we will all pull through this dark valley, because we do God's will; on the right and the left as we pass along nothing else could sustain us. Dr. Pond for years had desired a Christian home of his own. And when he realized his complete failure and the college asked him to resign, that he had reached a point in life where he might have spells of partial insanity; he possibly thought the quicker it was ended the better, and so the tragedy came. Oh, if we only could have known about his trouble and prayed for him, it might have been different! You teachers, tell all of your students to start early to live the Christian life. It is the wisest, safest and most manly thing to do. And then, come what will, it will be all right with your soul. I thank all the friends present for their kindness to us."

**SENATOR ASTIN TO AUSTIN**

Appropriations and Redistricting Bills  
All the Legislation He Expects This Session.

Senator J. R. Astin, representing this (the Twelfth) senatorial district in the upper house of the Texas legislature, left yesterday for Austin to be present at the opening of the special session of that body, which convened at 10 o'clock this morning.

Before leaving Senator Astin stated to an Eagle reporter that he did not anticipate that any business would be transacted at the special session except the appropriations and redistricting bills. He said he expected a warm fight to be waged over the redistricting bill but would use his every effort to keep Brazos county in a representative district to itself as heretofore.

In the matter of congressional districts, Mr. Astin does not expect them to be made until after congress acts on the reapportionment bill, which has been set for August 3.

If the bars should be let down, Senator Astin is confident there would be a "wild and woolly" time at Austin, but he believes Governor Colquitt will hold the solons down to the two subjects above referred to.

Representative J. L. Fountain, who has been spending the summer at Asheville, N. C., is expected to arrive home today or tonight and proceed at once to Austin.

**RECEIVED FINE CAR.**

Messrs. Johnson & Rohde, dealers in automobiles, have added a new line, the "Cadillac," to their agency. They received several days ago a very fine car of this make, which is being used for demonstration purposes and is one of the finest cars yet brought to Bryan. It is a 4-40, fully equipped, and has all the latest attachments. One of its greatest conveniences is a device for starting the engine without leaving your seat, doing away with getting out and cranking up every time you wish to start.

Messrs. Johnson & Rohde found a demand for just a little higher-priced car than their celebrated E-M-F, and for that reason took on the Cadillac so they can meet any demand made on them for style, price and quality.

**SPECIAL COUNCIL MEETING.**

A called meeting of the city council was held at 10 o'clock this morning, with the mayor and all aldermen present.

The purpose of the meeting was to consider rates for lights and power to be furnished by the new municipal plant to the citizens. After a lengthy discussion of the matter the rate for lights was fixed at 15 cents per kilowatt hour with a minimum of \$1.50 to be used in one month. The rate for power was fixed at 12 cents per kilowatt, with a minimum of 75 cents per horse power for each motor.

There being no further business the council adjourned.

**A Farmer's Protest Against Autos.**

To the Editor of The Bryan Eagle:  
The farmers are glad to see the roads put in a graded condition, but I am sorry to say they can not use them much on account of the automobiles, for many wagons, buggies and people, too, are getting crippled on account of it; therefore farm wagons will stay at home and trade will be cut short in Bryan as long as the nuisance automobiles scare the teams.
